ABOUT ME

An analytically driven finance and data science student with hands-on experience in research, strategy, and tech enablement. Proven expertise in business analysis, financial modeling, and collaborative project leadership. Seeking opportunities to apply technical analytics skills to drive data-backed business decisions.

LEADERSHIP & PROJECTS

Director, Business Analysts
DOC Analytica, Christ University
June 2025 - Present

Led 30+ members in research, client outreach, and event strategy to organize Acumen 2025, a university-level analytics and strategy fest.

Finance Head
Docathon, Christ University
June 2025 - Present

Managed sponsorships, budgeting, and vendor coordination for a department-wide sports fest.

Vehicle Parking App
IITM Course Project

Built a Flask-based web app with automated workflows and analytical dashboards for operational efficiency.

Effect of Mergers and Acquisitions on Business Performance (DOC Analytica)

Directed a 14-member team analysing Vodafone Idea's M&A impact, delivering valuable and strategic insights.

Research on Indian Stock Indices (DOC Analytica)

Analyzed 15 years of NSE–BSE index data using Power BI and Excel to reveal market trends and investor insights.
